

The map displays the extensive road network of Maharashtra, India. It features a complex web of roads connecting various districts and towns. Key elements include:

- Major Highways:** Represented by thick black lines, these connect major cities and districts.
- State Roads:** Shown as thinner lines, these provide connectivity to smaller towns and villages.
- Road Types:** Indicated by codes like 1F, 2F, 3F, and 4F, which likely denote different standards or widths of the roads.
- Towns and Cities:** Numerous locations are labeled, including Mumbai, Pune, Nashik, Kolhapur, and many others, showing their relative positions and road links.
- Geographical Features:** The map also shows some geographical context, such as the Arabian Sea to the west and the border with Karnataka to the south.

The map is a comprehensive tool for understanding the road infrastructure of Maharashtra, highlighting the connectivity and accessibility of various regions within the state.
