

BLOCK-MALKANIGRI DIST-MALKANIGIRI, STATE-ODISHA.

N.B.:- 1) GANGALA GP & REDAWADA GPs of this Block will be connected with Mathili Block OLT. Because these GPs are nearest to the Mathili Block OLT and to connect.

2) Challanguda GP, Tandiki GP, Badali GP, Tandapalli GP, Sikhapali GP, Gorakhunta GP & Matapaka GPs of Korukonda Block will be connected with this Block OLT. Because these GPs are nearest to this Block OLT and ease to connect. So here 18 no. of GPs are connected with this Block OLTs.

And Here we have not considered the existing route between Malkanigiri Exch. to Kalimela Exch. because the condition of the fiber is very bad and the attenuation as informed by BSNL Authority is very high(-1.5dB/km). So naturally, the GP's located on the side of this route are not coming under the loss budget calculation. So, we have proposed incremental length on this route.
